£ 292k

**Duration:**  
22 weeks

**Completion:**  
Jun '08

Culverlands Press are an exceptionally busy printer operating from the Winnal Trading Estate in Winchester.

Amiri Construction carried out the extension of their works to provide space for a new and expensive printer on a specific delivery deadline.

Phasing and use of temporary accommodation has allowed the client to remain in occupation throughout and allowed us to complete the space in time for the printer to be delivered, installed, commissioned and start earning it's keep.
