**Engineer:**  
John Grant Associates

**Architect:**  
John Robertson

**Value:**  
£539k

**Duration:**  
18 weeks

**Completion:**  
Oct '05

This was the third project carried out by the team at the 6th Form College at Farnborough. This Phase 5 project included the provision of new Science and Music rooms, DDA access works, a re-modelled entrance, examination material stores and staff area. In common with most education projects it was programme dependent and a September deadline to complete so that the College could present an exemplary new image to students, both new and returning, for the new academic year. Amiri were delighted to successfully deliver another scheme for the College estates team.
