

Munster Road, Poole

Project data

Client:
Beauchamp Properties

QS:
PH Warr

Architect:
HGP Architects

Value:
£2.8M

Duration:
52 weeks

Completion:
July '09

Munster Road is a development of three detached houses and eleven apartments. Technically this project is very complex because of the enormous change of level across the site and the significant excavation that has been needed to incorporate the underground car park to the apartment block.

The design of the scheme has taken advantage of the levels to provide the houses and apartments with views over Poole Bay and Studland despite being well into the Parkstone region of Poole.
